

## Product Datasheet

**Name:** Mouse Anti-D-DIMER Monoclonal Antibody

**Description:** Hybridoma clones have been derived from hybridization of myeloma cells with spleen cells of BALB/c mouse immunized with native D-dimer protein derived from human plasma.

Catalog No.	Clone	Isotype	Unit	Buffer
V1103	B1E9	IgG2b	mg	10mM PBS (pH7.4)

**Specificity:** Mabs react with antigen human D-DIMER

**Host:** Mouse

**Clonality:** Monoclonal

**Format:** Liquid

**Concentration:** ≥1mg/ml

**Purification:** ≥90% (SDS-PAGE)

**Preservative:** 0.1%Proclin300

**Application:** Recommended for sandwich immunoassays in ELISA and CLIA. Each laboratory should determine an optimum working titer for use in its particular application.

**Storage:** Store at -20 °C for one year. Avoid repeated freeze/thaw cycles.

**Background:** D-DIMER is A fibrin degradation fragment or product that is produced by the action of plasmin on fibrin in the clot dissolution process. See Disseminated intravascular coagulation, Fibrin split products.

**Note:** This product as supplied is intended for research or further manufacturing use only.
